FOR NEW MAIL BIDDERS

If you have never before bid by mail, an explanation is needed. Basically, the procedure is quite simple. You will notice on the enclosed Mail Bid Form a place for entering the Lot Number as well as the amount you wish to bid. After carefully reading the description of the Lot in question, simply write down the Lot Number and the maximum amount you are willing to pay in the appropriate columns. For example, let's assume you are interested in bidding on Lot No. 145. Determine the maximum price you will pay for this Lot and enter this amount on the Mail Bid Form as follows:

Lot	Bid		Lot	Bid	
145	90	00			

You will note we have used the term "maximum amount" above. The bid which you enter is the "maximum amount" or top price you will pay for a lot (unless you have checked one of the increase boxes). However, there is always the chance you may obtain the Lot for less! As indicated in our "Terms and Conditions Governing Sale," we act as your agent and execute your bids as if you were there in person at the Sale. We will buy the Lot for you as cheaply as possible over the next highest bid. In other words, if your bid, for example, is $90.00 on Lot No. 145, and the next highest bid, whether by mail or floor, is only $70.00, the Lot would be awarded to you at $75.00, or a nominal 5% to 10% increase over the next highest bid.

Before entering your bids, please read carefully our "TERMS AND CONDITIONS GOVERNING SALE." Bidding by mail permits the individual to participate in the auction sale just as though he were able to attend the Sale in person. Many rarities are obtained through the medium of auction sales, and it can be a very exciting as well as a rewarding method of obtaining wonderful items for your collection. We look forward to your participation in our Sales.

Thank you,

The Auction Department

These descriptions are only the cataloguer's opinion, after much research.

Miguel Munoz Collection Part II

Rare coins can be owned and admired by a single collector . . . or can be shared with the world through exhibits, lectures and research. Those numismatists that enrich the hobby by sharing their enthusiasm and knowledge are truly what coin collecting is all about.

Miguel L. Munoz is just such a person. Munoz was born almost 70 years ago in San Julian Jalisco, Mexico. His lifetime of devotion to the coins of Mexico can be traced back to 40 centavo coins that a young Munoz received in change for candy purchased from an old woman. The little boy noticed that on one coin the eagle was skinny; on another, the national bird of Mexico was fat. He then examined all of the different dates on the 40 coins Fate had decreed he receive. Thus, a coin collector was born. To this day . . . over half a century later, the distinguished hobbyist and scholar, Miguel Munoz, still has some of those original centavos in a very special place.

Miguel Munoz has contributed generously to the knowledge of others through frequent lectures, articles and books which have become "standards" in his field of specialization. He has been the featured speaker at several ANA Conventions (Houston, Washington), the New York Metropolitan Show (twice), several times at the Azteca in Los Angeles, as well as at Long Beach, Dallas, Hamilton and Calgary, Canada. He has also presented a paper at the First Centennial of the Societe Numismatique Francaise in Paris.

Even a brief listing of his numismatic activities is truly impressive. Memberships include: the American Numismatic Assoc., Fellow of the American Numismatic Society, former President (1959-1966) of the Sociedad Numismatica de Mexico, Founder and Present Director of the Academia Mexicana de Estudios Numismaticos, Fellow of the Royal Numismatic Society (London), plus TAMS, OIN, Azteca and many others.

Miguel Munoz is also certainly one of the most active authors in the distinguished Numismatic Literary Guild, with over fifty articles to his credit. He has won the Heath Literary Award, presented annually by the ANA, an amazing five times.

Miguel Munoz, the "Dean of Mexican Numismaticists", has prepared "The First Mint of Mexican Insurgents" (1968, Sociedad Numismatica de Mexico). "Historia Numismatica del Estado de Mexico" (1975 Government of the State of Mexico), "El Real de Ocho, Primera Moneda Universal" (Formento Cultural Banamex) and "Tlacos y Pilones la Monedo de Pueblo de Mexico" (Formento Cultural Banamex), reflects twelve years of research. His most recently published work is "Anthology of Mexican Numismatics" published bi-lingually in Spanish and English.

It is expected that the sharing of Miguel Munoz's in depth collection with the numismatic fraternity will see the coins of America's southern neighbor rise to new levels of popularity. This can be credited to Miguel Munoz's systematic approach to both collecting and research . . . . his legacy to all future generations of numismatists.

MEXICO CITY MINT – (Continued)

3175 8 Reales, 1898-M-A.M. This unique coin has never been listed by any cataloguer. It was first published by Senor Munoz in "*Gaceta Numismatica*, No. 28, March, 1973. The original Spanish text and English translation appear in Sr. Munoz work "*Antologia Numismatica Mexicana*" Mexico, 1977, p. 91ff. The decree of May 27, 1897 ordered the change to UN PESO coins to take place on January 1, 1899 and as of that date (May 27, 1897) no more 8 Reales were struck. This coin has four deep slash marks across the cap and rays. One possible explanation of this piece may be as follows:

1- Some mint worker, wishing to have a curiosity, punched the date 1898 in a die prepared for the 8 Reales coinage and struck one coin with this die, together with an obverse die of the 1897 8 Reales coinage.

2- The coin was confiscated by a mint official who cancelled the reverse with four heavy slash marks and then threw the piece into a scrap silver bin for remelting.

3- The coin was later withdrawn from the scrap bin and carried as a pocket piece by some mint worker. This resulted in even wear to the point of reducing the overall grade to Fine (disregarding the slash marks).

4- Sometime later the coin entered the Numismatic market and was acquired by Senor Munoz. With a little imagination any number of equally plausible explanations may be though of. Whatever the real story of this unique coin, it remains one of the great mysteries of Mexican Numismatics. In view of the undoubted rarity of this unique coin, we expect to see spirited bidding well into the four figure bracket. PHOTO ....($2,000.00 – UP)
